-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### **DETAILED ACTION**

1. Claims 1-5, 7-13, 15-29, 31, 32, 34-42, and 44-48 are pending. Claims 1, 2, 3, 5, 7, 8, 12, 13, 15-21, 23-25, 42, and 44-48 have been amended in this communication filed 08/04/06 entered as Amendment with filing of RCE and Request for Extension of Time.

2. The 35 USC 112 second paragraph rejections for claims 1-3, 4, 7, 8, 13, 15-21, 23-29, 31, 32, 34-42, 44, and 45 have been overcome by Applicants' amendment and the 35 USC 112 second paragraph rejection is hereby withdrawn.

### ***Continued Examination Under 37 CFR 1.114***

3. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 08/04/06 has been entered.

### ***Claim Objections***

4. Claims 7, 8, and 42 are objected to because of the following informalities: Claim 7 recites "... comprising: expiring the associated one of the plurality of valid charge numbers ...". This claim limitation would be better recited as " associating one of the expiring plurality of valid charge numbers ...". Claim 8, page 4 has a similar problem. Claim 42, line 5 recites "an issuing and transaction system, comprising:". This line

Art Unit: 3694

would be better recited as "an charge issuing and transaction system:". Appropriate correction is required.

***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 1, 26, and 42 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. Steps have been omitted from the claims which are considered critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976). Claim 1 has some essential steps missing. After the "valid charge numbers are received from an issuing bank" a step needs to be inserted prior to the providing to and routing to a charge settlement network for validating the transactions". Perhaps the next step could be "storing (in something, a device or a database or a memory) the plurality of valid charge numbers from the issuing bank; ...; detecting a request by a user via the electronics communication network for one of the plurality of charge numbers; associating one of the plurality of valid charge numbers with the prepaid cash account for a user in exchange for cash; providing via the electronics communication network, one of the associated valid charge numbers in response to the request by a user;

Art Unit: 3694

detecting via the charge settlement network, a purchase transaction using one of the associated valid charge numbers between the user and a merchant;

authorizing the purchase if a cash balance of the prepaid cash account is sufficient for a purchase amount of the purchase transaction using one of the associated valid charge numbers between the user and the merchant; and

requiring the authoring of the purchase transaction if a cash balance of the prepaid account is not sufficient for the purchase amount of the purchase transaction.

Claims 26 and 42 have a similar problem.

Claims 2-5, 7-13, 15-25, 27-29, 31, 32, 34-41, 44, 45, 47, and 48 are also rejected because of their dependency on a rejected base claim.
